

Beautiful and large Regence style fireplace carved in Burgundy stone

This fine and slender fireplace has all the main characteristics of the fireplaces from the early 18th century : jambs in console decorated with a thick molding, low arched lintel with, in the center, a sculpted leafy shell and acanthus leaves on each sides, fine molded tablet. A beautiful Regence fireplace carved in a hard stone from Burgundy, ideal for indoor decoration. Beautiful patina.

Height 116 cm
