

Central fountain with 2 basins in carved natural stone : Berger GM

This charmingly-rustic central fountain reminiscent of the shepherds' fountains is hand-crafted in Provence in a natural French-extracted limestone (Estailades or Avy). It features a square central column topped by a molded capital ending in peak, and, on each side, a shallow rectangular basin in massive stone. Sold with 2 wrought iron water spouts and a pair of metallic bucket-rest bars.
