Limestone fountains and basins

Large wall fountains in stone

Natural stone garden fountain to install in a corner

This wall fountain in carved limestone could be installed, thanks to its shape, in a corner. Hand-carved in Provence in a natural French-extracted stone (either the Estaillades or the Avy stone), this fountain features a massive basin resting on a molded base, finely molded flat copings, and a narrow rounded pediment fitted with a wrought iron water spout. It is topped by a molded capital.

Height	145 cm
Width	175 cm
Depth	75 cm

- Basin's height : 70 cm

Price
6320 €
