This large central fountain hand-crafted in a natural French limestone (the Avy stone or the Estaillades stone) is a Gothic-inspired water feature. Hand-carved in Provence, this garden fountain features a large octagonal Gothic-style basin in molded stones resting on a massive and thick octagonal base. The central obelisklike column is very finely hand-sculpted. 3 hand-sculpted gargoyles in stone serve as water spouts.

Height 335 cm

Diameter 405 cm

- Thickness of the base : 15 cm - Basin's height : 65 cm

- Diameter of the basin without the base : 325 cm
