Limestone fountains and basins

Small garden fountains in stone

Garden fountain carved in natural stone ideal for small spaces

This small garden water fountain is built to look like a water terminal. With a charmingly rustic look, it features a rectangular monolithic trough as basin and a rounded and narrow pediment. Hand-carved in the stone of Estaillades or in the stone of Avy, this water feature can be weathered and patinated to your liking. Sold with a water spout in forged wrought iron.
